LIST**

German beer is highly diverse and an important part of Germany's culture. There are around 1,300 breweries in Germany, more than in any other country except the United States which has 1,500. At the center of the German beer culture is Munchen (Munich). Munchen is derived from an old German word meaning "Monks." Legend has it that Monks were the first ones to brew beer in Bavaria to help them get through fasting.
